Our mission is to provide knowledge applicable to frontline ministry efforts, without taking students away from their home base. This online program allows students to take as many or as few courses as needed to suit their schedule and their ministry needs. Perfect for ministry leaders, those in the medical field and the lay person, this program is designed for the experienced and inexperienced alike.

THE PROGRAM

The Christian Healing Certification Program offers three primary areas of study – Physical Healing, Inner Healing and Deliverance.

The Physical Healing Track* is designed to train and equip students to minister God's miraculous healing for the physical body. Starting out with a Biblical Basis for Healing, you will be trained in Global Awakening's Five Step Prayer Model and Words of Knowledge. You will hear from seasoned leaders such as Bill Johnson, Heidi Baker and other internationally known healing ministers that share personal keys to their ministry of healing, incredible testimonies, encouraging personal breakthroughs and impartation.

The Inner Healing Track approaches the restoration of the soul from a comprehensive approach. First, you will learn how to hear God's voice and walk in a greater understanding of His extravagant love. This track will highlight and minister biblically regarding the influences on a person's heart that could lead

to or have already led to unbelief. This training will equip you to minister to the "inner man" and will give you the training to teach others.

The Deliverance Track is designed to give students a strong foundation for ministering to individuals who find themselves encumbered with the demonic. This foundation builds upon a simple yet effective process for administering deliverance rooted and grounded in love. This course soundly and methodically equips individuals to bring freedom to those in bondage.

*Physical Healing 1 is a prerequisite for all new students.
